CUPOLA LAMP COLLECTION DESIGN BY JOHN TREE

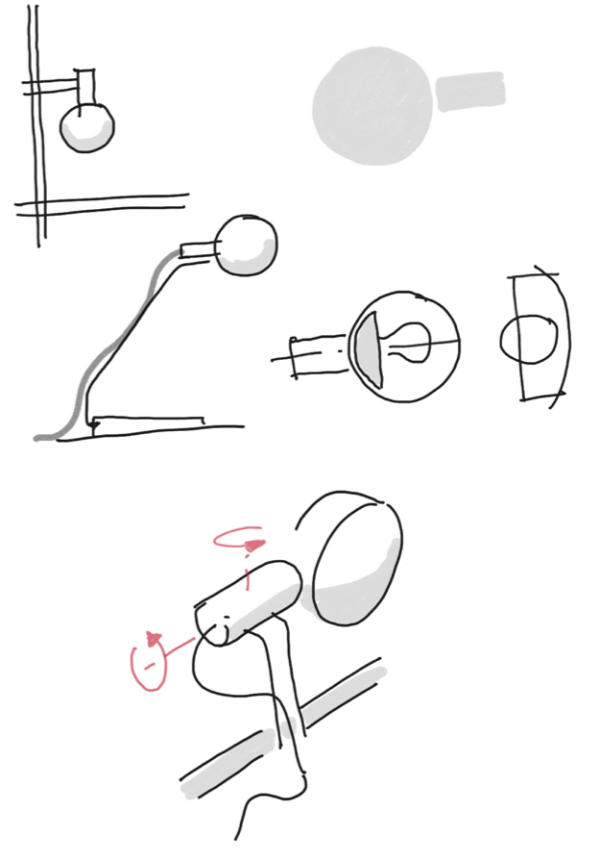

Cupola is a collection of adjustable lamps that explores the possibilities of providing optimal movement using minimal mechanisms. All the lamp designs feature circular domed heads that are distinctive in their simplicity, while offering a highly technical lighting solution. Crafted in durable aluminium with a natural anodised finish, the lamps balance a raw, industrial expression with rounded forms. Available as a Clip Lamp, Desk Lamp, and Wall Lamp, all equipped with a 360° rotating head and pivoting mount to provide localised, directional light to suit specific uses and rooms.

John Tree is a London-based product and furniture designer. He divides his time between Jasper's Morrison's studio and his own, where he pushes and explores industrial processes to create contract and domestic furniture, lighting, accessories, and electronics. For HAY, John Tree has also designed the Apex Lamp collection.
