BY MENU

MENU launches an elegant collection of lasting candles. Candles have long been used to create light and atmosphere in spaces around the world. With the launch of the Ignus Flameless Candle, MENU recreates the ambience of traditional wax votives — without the fuss.

A beautiful and lasting alternative to conventional candles, the illuminating new collection is shaped from fine bone china with a delicate matte finish. Fitted with LED technology and powered by battery, the adjustable designs are dimmable to three settings, allowing the user to curate the mood they desire. From tall, tapered forms to low and symmetrical silhouettes, the Ignus Flameless Candle is offered in six different shapes. As a static, warm-toned nightlight or a lasting alternative to a wax candle, each emits soft ambience, filling rooms with a beautiful warm glow.

## Objects Collection

The Objects Collection by MENU is a universal invitation to connect. With the moment and the space you are in; with family, a friends or with one's self. The collection takes on a new life in our spaces, uniting us in daily rituals, in celebrations and in mood. Comforting and connecting us, it instils memories over time. As designers, our intention is to go beyond mere function. The practical becomes poignant, rousing feelings and emotions. Always thoughtfully made, in quality and in aesthetics, pieces age gracefully and live long as the narrative of life unfolds.

## A Sense of Community

MENU has always been fascinated by the way in which individuals and spaces can be united through great design. In our pursuit to craft furniture, lighting and interior accessories shaped by purposeful details, high-quality materials and human needs, we create strong and lasting relations between designers, manufacturers and customers. The sense of community that results from this union of like-minded individuals fosters a deeper sense of belonging – and products that stand the test of time, inviting human connection, inspiration and experimentation to push the boundaries of modern design. We truly believe that when we work collectively, we achieve more than we do individually: the sum of our work and of our connections is always greater than its parts, and our softly minimal designs and collaborative spirit help to join the dots between the home, the workplace and the service industry, redefining how we use space and, ultimately, how we connect to those around us.
