New Works Shelving System

Knut Bendik Humlevik

New Works Shelving System

Knut Bendik Humlevik

Sometimes the simplest pieces prove to be the most difficult to find, say, the quintessential wall shelf. With understated details and intelligible flexibility, the New Works shelving system aims to be just that. Designed to effortlessly blend into a variety of spaces, this simple shelving system continues New Works' ongoing quest of creating elevated basics. Nothing is surplus and everything has been carefully attended to, like the angular profiles of the wall bars and the integrated bookends that keep your belongings in place. The shelves are neatly assembled with flat knurled screws in stainless steel, adding an honest yet refined detail to the design. A system that is meant to grow - in your home and in range - to accommodate various storage needs.

Materials

Shelves in walnut, oak black-stained ash or white-laquered mdf.

Dimensions

Several. See overview.

About the Designer

After years of experience as a product designer, Knut Bendik Humlevik became New Works creative director in 2014. Leading the story of New Works in collaboration with a number of internationally renowned designers, Knut also contributes his own pieces to the collection. His Scandinavian heritage is combined with an internationally inspired passion for honest materials, in a quest to create artistic and highly functional objects.

About New Works

New Works presents a collection at the intersection between old and new. Light and dark. Design and art. Our work pays homage to the strong Scandinavian history of craftsmanship and materiality, whilst challenging the contemporary forms of today. We collaborate with an international group of renowned designers and artisans, who display a matching fascination with sculptural forms and honest materials. These collaborative pursuits convey our love of the sensual, and of the bold.

New Works Shelving System
